

WHO WE ARE

Prairie Digital, Inc. is a privately owned U.S. contract engineer and manufacturer of electronics. Established in 1991, we have a 20+ year track record for meeting (and exceeding!) the demands of our customers.

Our services include designing, building, developing, testing, assembling and manufacturing low- to high- volume products.

Proudly
Made in the
U.S.A.

WE HAVE THE KNOWLEDGE
AND RESOURCES TO COMPLETELY
DEVELOP YOUR PRODUCT THROUGH ITS
ENTIRE LIFE CYCLE.

“ We love working with Prairie Digital! You guys really make the extra effort especially in your exceptional service when we're faced with time constraints or difficult circumstances! ”

Contract Engineering & Manufacturing for Electronics

OUR SERVICES

Design

We specialize in circuit board design, PCB layout and prototype construction. Our design work is based on our customers' goals for the project and we will consult you at every step in the process.

DO YOU REQUIRE A WORKING MODEL CREATED FROM THE GROUND UP, OR JUST A FEW MODIFICATIONS TO YOUR CURRENT PROTOTYPE IN ORDER TO TAKE IT TO THE NEXT LEVEL?

WE CAN HELP.

Assemble

We provide high-quality assembly work for simple to advanced projects, low to high volume. Our expertise includes printed circuit board assemblies, medical assemblies, high-tech assemblies, general electronic assemblies, and entire box-build assemblies. We will meet your project specifications and deliver on time.

Manufacture

Simple jobs or complex systems, 1 to 1,000 (or more!) products, we can handle it all. Our manufacturing services begin at building simple, electrical and/or mechanical components and extend to fully complete box build assemblies.

WE DESIGN AND BUILD EVERYTHING FROM SIMPLE ELECTRICAL COMPONENTS TO COMPLETE BOX BUILD ASSEMBLIES.

WHY PDI?

- ➔ Superior Quality Products
- ➔ Customer Privacy Protection
- ➔ Permanent, Exceptional Facility
- ➔ Proven History of Success
- ➔ Experience in Many Industries
- ➔ Custom Payment Terms & Quotes

The Step Between Ideas and Innovations
